```

Le cahier est souvent un objet de note, de recherche, d'exercice en même temps qu'un objet personnel. Cahier de laboratoire pour un scientifique, cahier de notes et d'essais pour un artiste, il conserve des pistes, des expériences et peut, dans certains cas, servir de preuve et aider à l'explication.

L'espace multimédia gantner accompagne ses activités par la publication des « Cahiers de l'espace » afin de prolonger et instituer l'exploration. Il s'agit d'une collection construite sur les constats éditoriaux du catalogue et du livre d'artiste. Ils apportent éléments critiques, pistes à approfondir, documents et clés de compréhension.

Cette collection, loin des poncifs du tout numérique, se décline sous forme éditée et sous forme éditable par téléchargement.
